

## Needs List

List for construction of initial garden, including clearing the land and building fence.

Measurements used are of the initial perimeter of the garden plot. If I think of anything else, I will update the list and send it to you guys. The links to the tools are just to give you an idea what the item looks like. If we do have to buy any of these items, I think the linked item would work best, even if the price tag is a little higher. Quality is better than quantity.
